Refund Determination Policy

If an applicant/student cancels, withdraws, or is terminated by the School for any reason, refunds will be made according to the School's Refund Policy. If a refund is due to the student, it will be paid within 30 days of the date that the student either officially withdraws, or the School determines that the student has withdrawn, using the student's last day of class attendance. The last day of class attendance is defined as the last day the student had academically related activity, which may include projects, clinical experiences, or examinations, as evidenced by posted attendance. If a student withdraws without written or verbal notice after classes have started, termination shall be effective on the date on which there has been 14 days of non-attendance. If a student fails to return to training by the end of an official leave of absence, a refund due a student shall be based on the date of withdrawal or termination and paid within 30 days of the scheduled last day of the leave of absence. Upon receipt of the refund, the student agrees that its receipt constitutes a full and complete release of the School from any and all liabilities. All government and agency refunds will be made within the required time limits of the funding source. The last day a student had academically related activity will be used to calculate any money the Student owes and to calculate any refund the Student is due. The date of withdrawal determination is 14 calendar days after the student's last date of attendance as determined by the School. All other fees are non-refundable when the applicable item or service is provided to the Student.
