CTD120 : TRIP PLANNING AND HOURS OF SERVICE

The student will be taught how to plan trips, read an atlas, and recognize different types of computer systems. The course also covers the regulations related to Driver Hours of Service, how to properly fill out a driver's log book and how to avoid Hours of Service violations, allowing the driver to stay on the road, benefiting both driver and employer. Students will also continue exploration of "Life Skills Lessons" with an emphasis on providing the highest quality customer service and the importance of Time Management.
