CTD130 : BASIC VEHICLE CONTROL

This course will introduce students to straight line backing. After properly adjusting their mirrors, students will move the truck back and forth in a straight 100 ft. line, complete controlled stops, and recover if the vehicle drifts to the left/right. Students will also be introduced to pull-ups which will allow the student to realign the vehicle as needed. Students will also explore “Life Skills Lessons” with an emphasis on job search skills and interviewing techniques. In addition, students will continue “Transportation Industry Awareness Lessons” with a focus on the procedures to drive a tractor trailer down a road with a steep downgrade.
